The gold turkey
November 17, 2011*

Once upon a time there was a turkey named Mackenzie. It was a golden turkey. They were the best. They were not at the store so people had to hunt them. They say it is the best in the whole wide world. We went to the forest. That is not good for Mackenzie.

"He might move," they said. "We are going to eat him", said the mom. The kid said, "But why, I am scared". They went home.

Later that day they came again. They found her and trapped her.

She jumped out and said "Yes!". She went to her cave and nothing happened ever since. And that is what might happen next Thanksgiving.

The next day it was Thanksgiving. Mackenzie stayed in the cave. And she was never seen again!

. P.S. NOT TRUE

Spooky story

October 28, 2011

It was close to Halloween. I was scared because the scariest thing was happening. It was a rainy night. I and my Dad were watching TV. And I needed to get my pajamas on. I could not find a top.

So I went to the laundry room. I was about to get it. Then the light went out. I almost made my way out the door but blocking the door was a ghost.

I got scared. So I ran out. I ran to my Dad and I told him what happened and nothing happened ever since then. It might happen again.

Do you think it is true or not? Post a comment if you think it is. The end

My Week

My Week

January 21, 2012

My week was awesome. I went to Henderson Street with Cecelia, Paloma, Teddy, and their dad. I went sledding. My sled was really fast.

When Cecilia and I went crashing into a tree, we popped off the tree. With Paloma, we crashed into a bush. With Teddy, we just went in a straight line. With just me I did not crash most of the time. and then went to bed. The next morning I did the same thing.

The attack

Once upon a time a little girl named Mackenzie went to the park. It was 10:00 o'clock. Mackenzie did not want to go. Soon it was 11:00. Mackenzie was going home when Mackenzie saw a space ship. She thought it was a star. She saw it come closer and closer and closer and closer until it landed. The alien came out of the space ship she was so scared that she ran a way. The alien was faster but Mackenzie got a head start. But the alien was faster and faster and faster and faster and faster and faster. It caught up. Mackenzie screamed as loud as she could but nobody herd her. She said, "Help me," still nobody. She ran to China and Japan and ended up in America in the middle of nowhere. The alien caught up and was about to get her but she ran into a house. The house said "Do not come in".

*On to but she knew it was her house it wasn't.
But it was a haunted house. She locked the door.
She got some food. Then she went to bed. Now
every alien was there. She saw a ghost in the house
so she ran up stairs and saw another ghost and
another. It seemed like pacman.*

Chapter 2

The scream

Mackenzie was so scared. The aliens broke the door. Mackenzie hid under the pantry. She screamed. That was the biggest mistake she had ever done. The aliens took her to their space ship. They went past Mars and they stop there she did not know what they will do. She got a space suit she floated back to earth. They got her. They flew her back to earth so they can get more people. They cannot find them. Cause Mackenzie texted all of the people on earth. And they are so hot because they are on Mercury. But they left and went to Jupiter. They were cold so they went to Mars. They where OK.

Chapter 3 help

*Soon they figured out they were on Mars, so they came back home. They were not there. So they trapped them there. No sign of aliens for five years. They broke free. They where mad so they came here. They heard a cry for help. Then a super hero came and saved the day, and it was over as they where so happy that they had a party. But one was left and started to get other aliens TO BE
